Topic 3: EUROPEAN DAY 2010 in Marseille

On the 6th / 7th of October 2010 the first EUROPEAN DAY of Regional Labour Market Observatories will take place in Marseille (preceding the annual meeting 2010), also hosted by Cereq. This conference will make a first step to a European wide exchange of all Regional Labour Market Observatories. A first research shows that there are around 300 regional observatories all over Europe. Currently basic information on each one is collected and integrated in a data bank. Furthermore we have positive responses on first requests for patronage for the European Day
